OHMTown News

CRUNCH TIME ... OHM MAY USER GROUP MEETING...

Please take a few minutes when an OHM person contacts your organization the week of April 14, 2008 for a final count and confirmation of information related to the OHM UGM. We need to release any rooms not confirmed end of this week. The rates after that (if any rooms are even available) will not be at the OHM rate. The call is also to ensure we have all details of your planned trip confirmed. Attached for your convenience is another copy of the registration form. Though we requested a January 31st date to respond. This is the last week to ensure room reservations. Please send your completed form in today!

Technical Tip

How to check if a process is running in the background. What are your options? See attached document for this months Tech Tip

WINNERS of the ISPA Drawing

Postcards were sent pre ISPA show to clients and potential clients and all they had to do was drop it off at the OHM booth during the show. Among our three winners, congratulations to Mr. Kay of Serta Winnipeg one of OHM's newer clients and two potential clients in Brocton, MA and Meridian, MS. Each is a winner of baseball memorabilia to coincide with our baseball theme of the Baltimore Orioles. Congratulations.

OHM Classes

This week OHMTools is in session. We since the registration have had additional request for the next set of classes. If you are interested in either the System Administration or the OHMTools class next session, please send an email to admin@ohmworld.com indicating how many from your company for which class and if you are available for Aug, Sept or Oct time frames. We will review and announce the next class dates. All submissions of interest need to be emailed by April 30th 2008.
