

2008 Business Updates

V-2008-02-07

PRODUCT UPDATES:

New WADE3 middleware to be released in next 40 days. Items such as pdf link for your report folder. Standard designed invoice, purchase order, statement and other forms available as a PDF document. A generic "publish" intranet site on your system that will allow you to select what reports you want to share. Individuals may enter that site (link) and are able to review or print reports from the list of published reports. While accessing the site there is NO USER LICENSES being used. Enhanced 3D graphing. A full WADE3 enhancement list will be published along at time of system release.

Administration Documentation – that users receive as part of your OHMWeb installation is being updated with the WADE3 features and screens and will be available for download when WADE3 is released.

E.I.S. – dashboard first release preview at ISPA trade show and full viewing at the May user group meeting. Special offering on this new release for users attending May Meeting.

Date Reminders:

March ISPA Trade Show – 12-15 2008 Baltimore Maryland (OHM is exhibiting)

April OHM OHMTools Class - April 14-18 2008

MAY USER GROUP MEETING - Wed/Thurs and ½ day Friday – May 21-22-23 2008

CLIENT QUOTE OF THE MONTH:

"What use to take me 2 weeks to close an Accounting month now takes me just a few days, using OHM software."
