

Tech Tip - Within OHM Exporting to Excel & Outlook from IE 7.0

See full documentation attached.

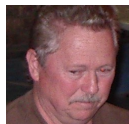

I can not believe the fantastic agenda for the MAY User Group Meeting. It is packed with information. Including Multiple presentations by IBM and one outside third party.

OHM showcasing new products , ideas and business directions. And OHM really wants the client feedback.

For those who are registered you will receive a separate letter with confirmations and updates the week of April 28th.

For any clients not registered and wanting to still participate we cannot guarantee space at the hotel, but please contact us so we may work with you for your attendance.

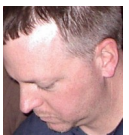

OHM's April 2008 Tool Class - Student Comment

Arnold Gordon, Jamison

"Mike, I have already had an opportunity to use skills learned in your class. Our SO.PRINT print form was not printing the 3rd tax code on orders that had 3 sales tax codes. I added the 3rd one and it worked perfectly. (Custom form in our module) Thanks for the great job you did instructing the class."

"I have already used much of what I learned last week – successfully – so I would call your class a success! Thanks for the opportunity to come down and learn."

Dave Deerwester, Yost

More class offerings will be announced in May publications. If you missed the recent Administration class or the April OHMTools class and wish to attend in 2008, send an email to admin@ohmworld.com with your interest and note any months or times NOT good for your participation. These two classes are held two to 4 times a year based on activity of clients account.

REMINDERS

May 10th for your submission of FAQ to be eligible for the drawing. See Newsletter Vol-2008-02-06 for complete details.

TODAY'S QUOTE

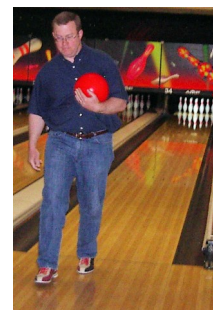

The only thing about doing nothing is you do not know when you are done.
