

Would you invest in an new car and then never have it serviced? Most likely not. Your software investment is just as important. Be part of the vendor and product growth.

OHM USER GROUP MEETING 2008

E  
training

ANNOUNCING JUNE 1, 2008

**OHM University - on line web training**

*Details to be released at the May User Group Meeting. Monthly scheduled web-training on modules, new releases and functions. Watch for complete details in upcoming business newsletters post the user group meeting .*

**QUOTATION MODULE ENHANCED**

First release of the standard OHM quotation module allowed for "quick quote" of Part Number Items.

**NOW ENHANCED:**

Enter a Job (no part number required)

Integrates to the "estimator" allowing you to bring up existing Bills of Material, other parts, services, misc charges or GL codes. Calculates the cost as you build and change the quote.

Fully intergraded to the standard OHM Work Flow process.

In both the quick quote and the enhanced features once a quote has been accepted you can update it to a standard sales order without any rekeying.

Available in OHM CCERP 3.1 release

**ALL NEW**

**May and June 2008**

- Customer /Prospect Contact Management
- Point of Sales—increase retail potential
- Executive Information Systems—Dashboard
