OHMTown News

OHM has two levels of 24X7 internet functionality. The full R.E.A.L. deal is everything for customers, vendors, employees and sales reps. You can lookup or enter orders, take credit cards, process transactions, configure a product and much more. The R.E.A.L. "lite" is licensed and setup by "account" in your database. This process allows lookup features and retrieval and access to your reports folder and other inquiry options.

In your office a user can have both a ERP backend server (concurrent) license login and a R.E.A.L. "lite" login. Why? This way those users be it in your office or traveling around the world wherever internet access is available can access and inquire without consuming a license or being a "concurrent" user. All the same security logic and protection exist. If you start with R.E.A.L. "lite" and then continue to grow the environment to the full R.E.A.L. system 80% of the value of the first environment will apply towards the full R.E.A.L. within 24 months of the first transaction.

You may be delighted and surprised at what both R.E.A.L. environments can do for you. Call sales at OHM today for more information.

Simple Object Access Protocol

Two day Workshops

Now forming -

Options based on number of

students to attend in Cincinnati or have an onsite class at your location. Late summer / early fall dates now forming. If you are interested in being on the list for these classes please send an email now through July 20th to: sales@ohmworld.com

Last call for the UGM special on the second PC test server environment. Review the details in January 2008 newsletter and documents. Sign up before end of June 2008 to receive the fee reduction.

Congratulations 15 Years TAPCO PRODUCTS

Bob, Dave, Karen, Kate (Tapco) Mike & Suresh (OHM)

OHM this year is celebrating with TAPCO a fantastic 15 years together. We will be bringing you highlights of those 15 years and how Tapco has used OHM applications at the leadership and vision of Bill Barr, Director of IT to evolve the technology department to a state of the art process to support the many divisions, locations and transactions of the company.

Calling for your suggestions. August 2008 we will be promoting **G.O.D. = Go Green Go OHM Go Digital**. We are looking for your office tips in conjunction to using OHM where you have gone **GREEN** in your processes. Each week in August we will feature an idea and that person will receive a gift. Submit now through July 31, 2008 at sales@ohmworld.com
