

# Happy 2009!

OHM SYSTEMS INC

www.ohmworld.com

We are excited to be entering another year with each of our clients. The current economic conditions as reported by the media appear to be disappointing. But we believe 2009 will continue to be a good year for all. 2009 is a time to regroup, streamline and prepare to be even stronger and better than before. Take advantage of all the OHM offerings and processes to further assist you in managing your business. We are here for you. Together all things are possible!

## JANUARY CLASSES

System Administration, Report Build and new features of the middleware and administration/security. Syllabus available. Sign up early. Classes in Cincinnati OHM office.

This level class is only offered a few times during the year. Regardless of how long you have been on the system taking this class will reinforce methods to better utilize and maintain your investment.

Thank you for the great response to the on site time under the WES program. We have received a large number of request and are putting together dates for each. We are pleased to see the enthusiasm to the program.

OHM representatives will be in Vegas for the February market show. We will only be in for 3 of the days, week

of Feb 9th-12th. We are not exhibiting. Anyone who will be in Vegas and would like to meet with an OHM rep please let us know so we may plan accordingly.

From Clients recent suggestions we will be adding Q1 of 2009 release :

Ability to enter a void date due to some clients being on document date basis in AP.

To enhance wire transfer "reversals" when a wire input is incorrectly entered.

Enhance PO.INSPECT related to "rejected" count on items when the OHM client is not using the full MRB module with their system.

Ability to add negative deduction to an employee pay check.

## WHAT'S NEW?

Reminder of OHM standard releases and your Warranty, Enhancement & Support Program (WES) working for you.

January 1 2009 we have frozen the 2008 year end program enhancements and updates. Under separate email this week based on what product you are currently using you will receive the release notes to take advantage of the release.

Every four months we will freeze additional updates and enhancements and you will receive a list to review.

The WADE3 product which is the base to the programs and products also receives ongoing updates and enhancements. We have frozen this product and will send you the updates for review.

Additionally under a new program we started last year, we keep a list of suggestions for possible enhancements. We will review these every quarter with our R&D team for inclusion to our standard program with a projected release date. We will communicate to each who made the suggestions after the R&D meetings as to the outcome for the suggestion. Standard enhancements will be added to the release notes as completed.
