FAXING

VS

eMAILING

Faxing or Email of invoices and other documents. The choice is yours. An email registration has been sent for your 2009 choice to receive invoices from OHM. If you choose faxing, we ask you note any special fax numbers for use. If you choose emailing we ask for you to note the proper email address to send to. We will continue faxing as we have done throughout 2008 if the forms are not completed and returned. You may change instructions to fax or invoice as needed. We learned in faxing that many of you sometimes do not receive complete pages or hit or miss invoicing, since they are sent as incurred and not on a particular date or day of the week. With many people handling faxes misrouting or distribution of the faxes seem to occur. Let us know your choice for 2009 by completing and sending the form back to OHM.

WADE3

With the recent year end release notes of WADE3 the foundation to all OHM's application software it is more important then before to take advantage of these updates and to have your Test2 environments ready to go. Those who have setup the test2 environments are seeing the many advantages associated to the testing and moving of patches and updates.

OHM representatives will be in Vegas for the February market show. We will only be in for 3 of the days, week

of Feb 9th-12th. We are not exhibiting. Anyone who will be in Vegas and would like to meet with an OHM rep please let us know so we may plan accordingly.

CLASSES

By request of clients who were unable to attend the January Administration Report Writer class we are scheduling a April session. The full syllabus is on the OHM website. Along with much more information.

OHM on Site Visits

Request for the special on site visit of OHM continue to roll in. Thank you for the support and enthusiasm. Note balance of Jan and all of February and March now fully booked. If you make a request use April or after for date options. Thank you!

WHAT'S NEW?

RECAP of Services and Products 2009
