OHMTown News

VOLUME 2009 - 06 - 05

WELCOME VyMaC Corporation NEW OHM CLIENT

VyMaC is a manufacturing and supply chain solutions company and the nation's largest distributor of mattress kits and related supplies. VyMaC is headquartered in a stunning refurbished Creamery Building located in Ft Atkinson WI. Long term employees with great attitudes and driven to get a job done are taking on the OHM bedding application.. Every employee we interacted with has enthusiasm and appreciation for the company. VyMaC will be starting a July implementation process. Our OHM team who is vying for the opportunity to install VyMaC and looking forward to the company's standard Thursday afternoon relax, with music, drink, eat and socialize times. Which has been an ongoing tradition at VyMaC for many years. Just another way the company reaches out to keep things fresh with their team.

New *WES Value*

Effective with our next Application Release

August 31, 2009

Version 4.2

OHM is publishing pre set times by functionality for training & review webinars. This will allow participants to go through the release list by module function as they are being guided through the screens. We are hopeful this will add value to the user to quickly see what is new or changed, new benefits as well as a quicker testing time. It is just a start and we need your feedback. We will be sending out the instructions and scheduled times starting with the 4.2 release in August. These are no charge overview/training sessions under the OHM Warranty, Enhancement and Support (WES) program..

\$350 Savings

Demo and add the CYCLE MODULE to your current list of OHM modules before July 31, 2009 and receive \$350 off the list price. This offer only valid for this period and must have a signed add-on with PO to your Program Product License Agreement (PPLA) before July 31,

2009. Cycle Module is a flat fee module by plant/facility.

Update

Wolf Corp Go Live Goal!

Those who read in our last newsletter update a new client Wolf Corp set out to beat a 62 day install record by doing it in 55 days. Well they did not hit the 55 day mark! They broke their own record and as of July 2, 2009 Wolf Corporation is now official the quickest single plant install of OHM bedding software in a record 52 days! Congratulations to the Wolf Corp Team!

OHM

Warranty, Enhancement & Support

Program (WES)

Congratulations to those who participated in the WES feedback plan. Each participant who gave us the feedback received a \$1000 of OHM dollars! With your input and continued support OHM will continue to grow the WES incentive programs. This ends the promotion for this feedback program.. Thank You.
